MERN Stack Developer

Computer Science and Engineering student with a strong interest in Full Stack Web Development. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and Java. Passionate about building responsive web applications and continuously learning modern technologies.

TECHNICAL SKILLS

Front-End Development: HTML, CSS, JavaScript
Programming : java

EDUCATION

Computer Science and Engineering
Erode Sengunthar Engineering College, Erode
2023 – Present | CGPA: 7.7

PROJECTS

Lab Attendance Management Developed –a Lab Attendance Management Portal using HTML, CSS, JavaScript, PHP, and MySQL. The system enables faculty to mark, update, and view student attendance records efficiently. It reduces manual errors by securely storing attendance data in a database. Gained hands-on experience in full-stack development, CRUD operations, and database management.

Skill Forge– Hackathon– Developed a web-based prototype during a 24-hour hackathon using HTML, CSS, JavaScript, JSON, and AI API integration. Implemented AI-powered skill analysis and personalized learning recommendations using structured datasets

INTERNSHIP EXPERIENCE

Frontend Development Internship– Techvoltz, Coimbatore. Learned HTML, CSS, JavaScript, responsive web design, and developed interactive web pages through hands-on exercises and projects

CERTIFICATION

- OOPS– Simplilearn
- Front end Development– Infosys SpringBoard
